

## **MEMORANDUM OF UNDERSTANDING**

This Memorandum of Understanding (MOU) is made between the City of Redmond whose address is 716 SW Evergreen Ave, Redmond, OR, hereinafter referred to as "Redmond", and Deschutes County 9-1-1 Service District whose address is 20355 Poe Sholes Dr. #300, Bend, OR, hereinafter referred to "DC-911".

### **PURPOSE AND SCOPE**

The purpose of the MOU is to meet an FCC requirement for allowing DC-911 to license on radio frequencies currently licensed by the City of Redmond which are being used in the County-wide radio system under the management of DC-911.

In particular, this MOU is intended to:

- A) describe the radio system operation relationship between Redmond and DC-911 and
- B) provide a consent by Redmond for the licensing of the below listed radio frequencies by DC-911 at Cline Butte located southwest of Redmond and at Cinder Butte located north of Redmond.

### **BACKGROUND**

Currently, the City of Redmond is licensed by the FCC to provide public safety communications on radio repeater pair frequencies: 856.7625/811.7625, 857.7625/812.7625, 858.7625/813.7625, 859.7625/814.7625 860.7625/815.7625 MHz

The frequencies are transmitted on by a set of radio repeaters northeast of Redmond at Grey Butte, as well as, mobiles in the Redmond area and throughout Deschutes County under the license WQAY688.

DC-911 operates a County 9-1-1 Public Safety Answering Point in the City of Bend and provides public safety dispatch services to Redmond, as well as, manages the radio system that transmits on the above frequencies. DC-911 is improving radio system coverage throughout Deschutes County and in Redmond with the implementation of a trunked simulcast P-25 radio system which will operate in conjunction with the State of Oregon statewide radio system. The radio system improvement will require DC-911 to license on the above frequencies at two new tower sites located just outside of Redmond.

Per FCC Rule Section 90.621(b) (5), consent must be provided by the current licensee (Redmond) in order for DC-911 to license the above frequencies within 113 km (70 miles) of the existing licensed coverage area.

### **IT IS MUTUALLY UNDERSTOOD AND AGREED BY AND BETWEEN THE PARTIES THAT:**

Redmond provides consent to DC-911 to license the above frequencies at the Cline Butte and Cinder Butte tower sites, and for the use by mobiles in Redmond and the surrounding areas. DC-911 will continue managing the radio system in accordance with all applicable FCC rules and regulations.

## MODIFICATIONS

The MOU represents the entire and integrated understanding between Redmond and DC-911 and supersedes all prior negotiations, representations or understandings regarding the radio frequencies detailed in this MOU either written or oral. This MOU may be amended only by written instrument signed by both parties.

IN WITNESS WHEREOF, the parties hereto have executed this Memorandum of Understanding on the date noted.
